Operating Systems: MacOS, Windows, UNIX, Linux

Software Applications: Microsoft Office, Adobe Suite, Eclipse IDE, Visual Studio IDE, SSMS

Experience

Junior Application Developer

April 2022 – Present

MediaBrands Canada – Toronto, ON

- Follow Scrum process in order to plan, develop and revisit projects.
- Use Asana tool to gather requirements, create test cases, listen to user feedback and document.
- Assist the Senior Application Developer and Team Lead with existing and new projects, taking the lead for some.
- Maintaining large codebases in SQL and improving them so they are easier to work with and are more efficient, often with limited information.
- Meaningful collaboration with those on my team as well as external teams.

IT Data Analyst

June 2021 – December 2021

Caps Canada – Tecumseh, ON

- Worked on network systems to create a stable environment for production associates.
- Independently worked on projects that increased productivity and efficiency of work.
- Worked with MS Access and MySQL databases to help keep company information up to date and working correctly.
- Communicate effectively with team leadership and suggest new ideas that generated higher efficiency and longer uptimes.

Projects

Wertigo (<https://wertigo.ca>)

November 2021 - Present

- Web application written using **Node JS** and **React** hosted on Heroku.
- Experience with Express, OAuth2, Nodemailer and Databases.
- Aim to bring local businesses more customers by giving them a platform.

Am I Cancelled? (<https://am-i-cancelled.herokuapp.com>)

April 2020

- Twitter-based web application written in **Python** with **Flask** and HTML and CSS.
- Self-taught how to utilize Twitter's API to connect with my program.
- Learned how to work with **OAuth2** to grant user access to my program.

Academic Projects

Autonomous Vehicle Simulation

Sept 2020 – April 2021

University of Windsor – Windsor, ON

- Utilized the **Unity3D** game engine using **C#** to simulate the behaviour of an autonomous vehicle with an emphasis on **localization**.
- **Trained** the simulation using **machine learning** and **neural networks** to maneuver a course autonomously.

Awards

Xerox Canada Information Technology Scholarship

2021

University of Windsor Dean's Honour Roll

2017 – 2021

University of Windsor Dean's Renewable Entrance Scholarship

2017
